

### Why Choose Us?

Because we manage your backups for you. A member of our staff can contact you by phone or email when there is a problem with your backups or a backup is missed for so many days!

Get a 30 Day Free Trial Backup Plan!

Visit [www.CZBackup.net](http://www.CZBackup.net) and sign up for your FREE 30 day Trial Backup Plan today!

#### \*What does ISO 27001 certification mean?

The International Organization for Standardization (ISO) is the world's largest developer and publisher of international standards, and ISO 27001 is the globally recognized Information Security Management System (ISMS) benchmark.

ISO 27001 specifies the requirements and processes necessary to enable a business to establish, implement, review, monitor, manage, and maintain effective information security.

# The Backup Solution That Works For Your Business

COMPUTER ZONE BACKUP

Data Loss is NOT an Option!

HAVE YOU EVER HAD THAT MOMENT WHEN YOU LOSE ALL YOUR DATA YOU'VE SPENT SO MUCH TIME AND EFFORT CREATING. COMPUTER ZONE BACKUP WANTS TO HELP ELIMINATE THAT FEELING BY PROVIDING YOU WITH A SIMPLE AND SECURE BACKUP SERVICE.

## SYSTEMS SUPPORTED:

- WINDOWS(32 & 64 BIT)
- MAC OSX
- LINUX
- NOVELL NETWORK
- UNIX

## flexible solutions for your business needs

### HOW IT WORKS

#### >INSTALL

Computer Zone Backup staff installs backup-software onto your computer or server through the online portal.

#### >BACKUP

Computer Zone Backup staff installs backup-software onto your computer or server through the online portal.

#### >PROTECT

Data is also copied to a secondary data center to provide another layer of redundancy; If your business has data loss or corruption, your previous backup then becomes instantly retrievable.

### AUTOMATIC SCHEDULING

Our automatically scheduled online backup eliminates the potential for human error, while promoting faster and timelier disaster recovery with less data loss.

### Reasons to choose CZ Backup:

- ISO-certified\* (highest security)
- Fully managed and monitored
- Lost data instantly restored
- All changes are backed-up automatically.

### CUSTOMIZED PRICING

Every business is different in size, so our pricing structure is based on the level of service that your business requires, whether your small or medium business or even a Large Corporation.

### CLOUD BACKUP

We store your data offsite in multiple data centers, offer multiple retention periods, encrypt all your files providing you with the access to it, and it does not have the upfront or recurring costs as tape. In short, it's more reliable and better than a tape backup.

### DISASTER RECOVERY

Restore a crashed Windows™ server or Bare Metal Restore (BMR) of O/S, data, SQL and Exchange.

DATA LOSS IS NOT AN OPTION, SO LET US HELP YOU?
